#### Painting a Larger Scale Flat Figure: How an Under-Painting Can Help

Friday July 1

14:30-18:30

Skill Level: **Intermediate-Advanced**

Price: € 65 (A cleaned and primed flat figure of Jaroslava, Mucha's Daughter from Jupiter Miniatures included)

During the 4h workshop we will create a value drawing (under-painting) on the flat figure. This is like a shaded drawing of the flat. Using photographic reference, we will paint the shadows and highlights to help make a flat figure look 3 dimensional. We will also discuss what comes next: adding color.

The tutorial take-home (printed hand out) will have instruction from start to finish of the flat that was painted for example. The student can take their flat and tutorial home and be able to finish it as desired  
The students will also receive 2 printed reference pictures: 1 B/W & 1 colored.

All students should bring some brushes, a palette, a water container, a lamp, some acrylic colors: Please bring a dark brown like Burnt Umber, a dark blue like Dark Prussian Blue, an off-white like Unbleached Titanium. You may bring other colors as well but we will complete the under-painting in a grey-scale using a mixture of brown, blue and off-white.

The WME organizers will provide some small materials like water cups, paper towels, etc.

We provide powerstrips **but we do not provide desk lamps or extension cords**, Please bring your own, and remember that we have Euro plugs and 230V. So for non EU-participants it might be necessary to bring a plug adapter.
