You can achieve a lot with an airbrush especially using pre- & post shading. During this airbrush course, based on a 1/72 Airfix kit, we will be focusing on pre- & post- shading and bare-metal & colour airbrushing. For every participant an already build & black-based model (Airfix new tooled 1/72 Nakajima B5N1 'Kate' ), paints, varnish, washes, masking tape etc.. are provided.

All students should bring an \*Airbrush & hose, some brushes, a modelling knife (X-acto for example) and a doses of "oh yeah oh yeah let's go!" modelling spirit!

***\*Please bring an airbrush with a fine nozzle & needle since we're going to airbrush fine details.***

If you're not able to bring your own compressor the WME organizers are able to provide one.

The WME organizers will provide various materials such as water cups, paper towels etc. For those travelling to the seminar by air, we can provide a compressor and a hose with connector, but we have to charge an additional fee of €10 for the workshop. Additionally a deposit of €10 will be charged for the connector. After you return the connector, you'll be refunded € 10 in cash. Please select the correct ticket when you opt to use the "airbrush service" (see also "payment" below)

We provide powerstrips **but we do not provide desk lamps or extension cords**, Please bring your own, and remember that we have Euro plugs and 230V. So for non EU-participants it might be necessary to bring a plug adapter.
