WORKSHOP OUTLINE

Michal Pisarski

Introduction to the NMM advanced painting technique

Saturday July 2

10:00-14:00

Skill Level: **Intermediate-Advanced**

Price: € 73 (figure included!)

The course is divided into three parts. We will start with a theoretical introduction explaining the light distribution and ideas behind my approach also with step-by-step pictures of the whole process.

Next we'll go for practice and start from sketching the light distribution. First I'll show the whole process and then each participant will try out this method with my assistance and advice.

In the last part we will add more colors into our metal and smooth sketch of our light distribution.

All students should bring some brushes, a palette, a lamp, some colors preferably with matte/slightly satin finish. An airbrush is not needed.

We will be working on a GW Stormcast Eternal Vindicator model, which is excellent for NMM practice

The WME organizers will provide some small materials like water cups, paper towels, etc.

We provide powerstrips **but we do not provide desk lamps or extension cords**, Please bring your own, and remember that we have Euro plugs and 230V. So for non EU-participants it might be necessary to bring a plug adapter.
